Subject Index

Aggression
Do testosterone levels relate to aggression in elderly men with dementia? Orengo C, Kunik ME, Molinari V, Wristers K, Yudofsky SC. Spring 161–166
Agitation
Estimating the prevalence of agitation in community-dwelling persons with Alzheimer's disease. Tractenberg RE, Weiner MF, Thal LJ. Winter 11–18
Akinetic Mutism
Clinicopathologic case report: akinetic mutism with findings of white matter hyperintensity (neuropsychiatric practice and opinion). Lim GT, Mendez MF, Bronstein YL, Jouben-Steele L, Vinters HV. Spring 214–221
Alcohol
Addiction denial and cognitive dysfunction: a preliminary investigation. Rinn W, Desai N, Rosenblatt H, Gastfriend DR. Winter 52–57
In reply to Dr. Strauss (letter). Rinn WE. Fall 467–468
Neurological basis of deficits in affective prosody comprehension among alcoholics and fetal alcohol–exposed adults. Monnot M, Lovallo WR, Nixon SJ, Ross E. Summer 321–328
On addiction denial and cognitive dysfunction in alcoholics (letter). Strauss GD. Fall 467
Alexia
Slowly progressive alexia (letter). Mendez MF. Winter 84
Alzheimer's Disease
A case series of D-cycloserine added to donepezil in the treatment of Alzheimer's disease (letter). Falk WE, Daly EJ, Tsai GE, Gunther J, Brown P. Fall 466–467
Disease-specific properties of the Hamilton Rating Scale for Depression in patients with stroke, Alzheimer's dementia, and Parkinson's disease. Naarding P, Leentjens AFG, van Kooten F, Verhey FRJ. Summer 329–334
Errors produced on the Mini-Mental State Examination and neuropsychological test performance in Alzheimer's disease, ischemic vascular dementia, and Parkinson's disease. Jefferson AL, Cosentino SA, Ball SK, Bogdanoff B, Leopold N, Kaplan E, Libon DJ. Summer 311–320
Estimating the prevalence of agitation in community-dwelling persons with Alzheimer's disease. Tractenberg RE, Weiner MF, Thal LJ. Winter 11–18
The future for diffusion tensor imaging in neuropsychiatry (windows to the brain). Taber KH, Pierpaoli C, Rose SE, Rugg-Gunn FJ, Chalk JB, Jones DK, Hurley RA. Winter 1–5
Impaired recognition of facial expressions of emotion in Alzheimer's disease. Hargrave R, Maddock RJ, Stone V. Winter 64–71
Investigating emergent symptomatology as an outcome measure in a behavioral study of Alzheimer's disease. Tractenberg RE, Gamst A, Thomas RG, Patterson M, Schneider LS, Thal LJ. Summer 303–310
Learning and recall in subjects at genetic risk for Alzheimer's disease. Chen JG, Edwards CL, Vidyarthi S, Pitchumoni S, Tabrizi S, Barboriak D, Charles HC, Doraiswamy PM. Winter 58–63
The Pocket Smell Test: successfully discriminating probable Alzheimer's dementia from vascular dementia and major depression. Duff K, McCaffrey RJ, Solomon GS. Spring 197–201
Subcortical hyperintensities in Alzheimer's disease: associated clinical and metabolic findings. Sultzer DL, Chen ST, Brown CV, Mahler ME, Cummings JL, Hinkin CH, Mandelkern MA. Summer 262–269
American Neuropsychiatric Association (ANPA)
Executive control function: a review of its promise and challenges for clinical research. A report from the Committee on Research of the American Neuropsychiatric Association. Royall DR, Lauterbach EC, Cummings JL, Reeve A, Rummans TA, Kaufer DI, La France WC Jr, Coffey CE. Fall 377–405
13th Annual Meeting scientific program and abstracts. Winter 93–121
Amyotrophic Lateral Sclerosis
Adjunctive modafinil in ALS (letter). Sternbach H. Spring 239
Anosognosia
Determining levels of unawareness in dementia research. Lamar M, Lasarev MR, Libon DJ. Fall 430–437
Antidepressants
Efficacy and safety of venlafaxine-ECT combination in treatment-resistant depression. Gonzalez-Pinto A, Gutierrez M, Gonzalez N, Elizagarate E, Perez de Heredia JL, Mico JA. Spring 206–209
In reply to Dr. Lauterbach (letter). Bräunig P, Krüger S. Winter 85–86
Paroxetine for treatment of somatization disorder (letter). Okugawa G, Yagi A, Kusaka H, Kinoshita T. Fall 464–465
Rapid worsening of depressive symptoms in a patient with depression after switching from a TCA to an SSRI (letter). Sato K, Yoshida K, Higuchi H, Shimizu T. Summer 357
Valproate for catatonia: need for caution in patients on SSRIs and antipsychotics (letter). Lauterbach EC. Winter 84–85
Antipsychotics
A case of neuroleptic malignant syndrome with quetiapine (letter). Bourgeois JA, Babine S, Meyerovich M, Doyle J. Winter 87
Differential effects of olanzapine and risperidone on cognition in schizophrenia? A saccadic eye movement study. Broerse A, Crawford TJ, den Boer JA. Fall 454–460
In reply to Dr. Lauterbach (letter). Bräunig P, Krüger S. Winter 85–86
Lamotrigine–clozapine combination in refractory schizophrenia: three cases (letter). Saba G, Dumortier G, Kalalou K, Benadhira R, Degrassat K, Glikman J, Januel D. Winter 86
Marked improvement of Meige's

syndrome with olanzapine in a schizophrenic patient (letter). Fukui H, Murai T. Summer 355–356
Risperidone and refusal to eat after traumatic brain injury (letter). Mizoguchi Y, Monji A, Isayama H, Tashiro N. Winter 87–88
Valproate for catatonia: need for caution in patients on SSRIs and antipsychotics (letter). Lauterbach EC. Winter 84–85
Anxiety
Educating patients about symptoms of anxiety in the wake of neurological illness (letter). Dattilio FM. Summer 354–355
Apolipoprotein E
Apolipoprotein E gender effects on cognitive performance in age-associated memory impairment. Bartrés-Faz D, Junqué C, Moral P, López-Alomar A, Sánchez-Aldeguer J, Clemente IC. Winter 80–83
Learning and recall in subjects at genetic risk for Alzheimer's disease. Chen JG, Edwards CL, Vidyarthi S, Pitchumoni S, Tabrizi S, Barboriak D, Charles HC, Doraiswamy PM. Winter 58–63
Aprosody
Neurological basis of deficits in affective prosody comprehension among alcoholics and fetal alcohol–exposed adults. Monnot M, Lovallo WR, Nixon SJ, Ross E. Summer 321–328
Assessment Instruments
Disease-specific properties of the Hamilton Rating Scale for Depression in patients with stroke, Alzheimer's dementia, and Parkinson's disease. Naarding P, Leentjens AFG, van Kooten F, Verhey FRJ. Summer 329–334
Errors produced on the Mini-Mental State Examination and neuropsychological test performance in Alzheimer's disease, ischemic vascular dementia, and Parkinson's disease. Jefferson AL, Cosentino SA, Ball SK, Bogdanoff B, Leopold N, Kaplan E, Libon DJ. Summer 311–320
The Pocket Smell Test: successfully discriminating probable Alzheimer's dementia from vascular dementia and major depression. Duff K, McCaffrey RJ, Solomon GS. Spring 197–201
Attention-Deficit/Hyperactivity Disorder
A randomized, double-blind, crossover study of methylphenidate and lithium in adults with attention-deficit/hyperactivity disorder: preliminary findings. Dorrego MF, Canevaro L, Kuzis G, Sabe L, Starkstein SE. Summer 289–295
Auditory Cortex
Transcranial magnetic stimulation of left auditory cortex in patients with schizophrenia: effects on hallucinations and neurocognition. d'Alfonso AAL, Aleman A, Kessels RPC, Schouten EA, Postma A, van der Linden JA, Cahn W, Greene Y, de Haan EHF, Kahn RS. Winter 77–79
Behavior
Behavioral problems as predictors of functional abilities of vascular dementia patients. Zawacki TM, Grace J, Paul R, Moser DJ, Ott BR, Gordon N, Cohen RA. Summer 296–302
Behavior in Huntington's disease: dissociating cognition-based and mood-based changes. Thompson JC, Snowden JS, Craufurd D, Neary D. Winter 37–43
Investigating emergent symptomatology as an outcome measure in a behavioral study of Alzheimer's disease. Tractenberg RE, Gamst A, Thomas RG, Patterson M, Schneider LS, Thal LJ. Summer 303–310
Binswanger's Disease
Clinicopathologic case report: akinetic mutism with findings of white matter hyperintensity (neuropsychiatric practice and opinion). Lim GT, Mendez MF, Bronstein YL, Jouben-Steele L, Vinters HV. Spring 214–221
Books Reviewed
Blumenfeld H: Neuroanatomy Through Clinical Cases. Merino JG, Martin A. Summer 351–352
Feinstein A: The Clinical Neuropsychiatry of Multiple Sclerosis. Halper J. Spring 237–238
Sohlberg MM, Mateer CA: Cognitive Rehabilitation: An Integrative Neuropsychological Approach. Kornbleuth M. Summer 352
Brain Atrophy
Frontal cortex atrophy predicts cognitive impairment in multiple sclerosis. Benedict RHB, Bakshi R, Simon JH, Priore R, Miller C, Munschauer F. Winter 44–51
Traumatic brain injury and atrophy of the cingulate gyrus. Yount R, Raschke KA, Biru M, Tate DF, Miller MJ, Abildskov T, Gandhi P, Ryser D, Hopkins RO, Bigler ED. Fall 416–423
Brain Imaging. *See also* specific imaging modalities
Age and regional cerebral blood flow in schizophrenia: age effects in anterior cingulate, frontal, and parietal cortex. Schultz SK, O'Leary DS, Boles Ponto LL, Arndt S, Magnotta V, Watkins GL, Hichwa RD, Andreasen NC. Winter 19–24
Cerebral blood flow changes associated with Schneiderian first-rank symptoms in schizophrenia. Franck N, O'Leary D, Flaum M, Hichwa RD, Andreasen NC. Summer 277–282
Ecstasy in the brain: a model for neuroimaging (windows to the brain). Hurley RA, Reneman L, Taber KH. Spring 125–129
The expanding role of imaging in prion disease (windows to the brain). Taber KH, Cortelli P, Staffen W. Hurley RA. Fall 371–376
The future for diffusion tensor imaging in neuropsychiatry (windows to the brain). Taber KH, Pierpaoli C, Rose SE, Rugg-Gunn FJ, Chalk JB, Jones DK, Hurley RA. Winter 1–5
A magnetization transfer analysis of the thalamus in schizophrenia. Bagary MS, Foong J, Maier M, duBoulay G, Barker GJ, Miller DH, Ron MA. Fall 443–448
Predicting treatment response in obsessive-compulsive disorder (windows to the brain). Hurley RA, Saxena S, Rauch SL, Hoehn-Saric R, Taber KH. Summer 249–253
SPECT scans in identical twins with trichotillomania. Vythilingum B, Warwick J, van Kradenburg J, Hugo C, van Heerden B, Stein DJ. Summer 340–342
Subcortical hyperintensities in Alzheimer's disease: associated clinical and metabolic findings. Sultzer DL, Chen ST, Brown CV, Mahler ME, Cummings JL, Hinkin

CH, Mandelkern MA. Summer 262–269

Capgras Syndrome

A blind man with Parkinson's disease, visual hallucinations, and Capgras syndrome (letter). Hermanowicz N. Fall 462–463

Catatonia

In reply to Dr. Lauterbach (letter). Bräunig P, Krüger S. Winter 85–86

Valproate for catatonia: need for caution in patients on SSRIs and antipsychotics (letter). Lauterbach EC. Winter 84–85

Cerebral Blood Flow

Age and regional cerebral blood flow in schizophrenia: age effects in anterior cingulate, frontal, and parietal cortex. Schultz SK, O'Leary DS, Boles Ponto LL, Arndt S, Magnotta V, Watkins GL, Hichwa RD, Andreasen NC. Winter 19–24

Cerebral blood flow changes associated with Schneiderian first-rank symptoms in schizophrenia. Franck N, O'Leary D, Flaum M, Hichwa RD, Andreasen NC. Summer 277–282

Cingulate Gyrus

Age and regional cerebral blood flow in schizophrenia: age effects in anterior cingulate, frontal, and parietal cortex. Schultz SK, O'Leary DS, Boles Ponto LL, Arndt S, Magnotta V, Watkins GL, Hichwa RD, Andreasen NC. Winter 19–24

Traumatic brain injury and atrophy of the cingulate gyrus. Yount R, Raschke KA, Biru M, Tate DF, Miller MJ, Abildskov T, Gandhi P, Ryser D, Hopkins RO, Bigler ED. Fall 416–423

Circadian Rhythms

Psychiatric features and disturbance of circadian rhythm of temperature, pulse, and blood pressure in Wilson's disease. Matarazzo EB. Summer 335–339

Classic Articles

An essay on the shaking palsy. Parkinson J. Spring 223–236

Neurodegenerative disorders: James Parkinson's essay on the shaking palsy (introduction). Neylan TC. Spring 222

Cognitive Deficits

Addiction denial and cognitive dysfunction: a preliminary investigation. Rinn W, Desai N, Rosenblatt H, Gastfriend DR. Winter 52–57

Apolipoprotein E gender effects on cognitive performance in age-associated memory impairment. Bartrés-Faz D, Junqué C, Moral P, López-Alomar A, Sánchez-Aldeguer J, Clemente IC. Winter 80–83

Association of obsessions and compulsions in schizophrenia with neurocognition and negative symptoms. Lysaker PH, Bryson GJ, Marks KA, Greig TC, Bell MD. Fall 449–453

Behavior in Huntington's disease: dissociating cognition-based and mood-based changes. Thompson JC, Snowden JS, Craufurd D, Neary D. Winter 37–43

Differential effects of olanzapine and risperidone on cognition in schizophrenia? A saccadic eye movement study. Broerse A, Crawford TJ, den Boer JA. Fall 454–460

Effects of depression and Parkinson's disease on cognitive functioning. Norman S, Tröster AI, Fields JA, Brooks R. Winter 31–36

Frontal cortex atrophy predicts cognitive impairment in multiple sclerosis. Benedict RHB, Bakshi R, Simon JH, Priore R, Miller C, Munschauer F. Winter 44–51

In reply to Dr. Strauss (letter). Rinn WE Fall 467–468

Insight and neurocognitive function in schizophrenia (letter). Aleman A, de Haan EHF, Kahn RS. Spring 241–242

On addiction denial and cognitive dysfunction in alcoholics (letter). Strauss GD. Fall 467

Transcranial magnetic stimulation of left auditory cortex in patients with schizophrenia: effects on hallucinations and neurocognition. d'Alfonso AAL, Aleman A, Kessels RPC, Schouten EA, Postma A, van der Linden JA, Cahn W, Greene Y, de Haan EHF, Kahn RS. Winter 77–79

Cognitive Enhancers

A case series of D-cycloserine added to donepezil in the treatment of Alzheimer's disease (letter). Falk WE, Daly EJ, Tsai GE, Gunther J, Brown P. Fall 466–467

Donepezil for cognitive deficits following traumatic brain injury: a case report (letter). Bourgeois JA, Bahadur N, Minjares S. Fall 463–464

Conversion Symptoms

Parietal circuits and conversion seizures (letter). Vardi J, Finkelstein Y, Zlotogorski Z. Fall 468

Creutzfeldt-Jakob Disease

The expanding role of imaging in prion disease (windows to the brain). Taber KH, Cortelli P, Staffen W, Hurley RA. Fall 371–376

Déjà Vu Experiences

Déjà vu: possible parahippocampal mechanisms. Spatt J. Winter 6–10

Delirium

Symptoms of delirium among elderly medical inpatients with or without dementia. Cole MG, McCusker J, Dendukuri N, Han L. Spring 167–175

Dementia. *See also* **Alzheimer's Disease**

Behavioral problems as predictors of functional abilities of vascular dementia patients. Zawacki TM, Grace J, Paul R, Moser DJ, Ott BR, Gordon N, Cohen RA. Summer 296–302

Determining levels of unawareness in dementia research. Lamar M, Lasarev MR, Libon DJ. Fall 430–437

Do testosterone levels relate to aggression in elderly men with dementia? Orengo C, Kunik ME, Molinari V, Wristers K, Yudofsky SC. Spring 161–166

Errors produced on the Mini-Mental State Examination and neuropsychological test performance in Alzheimer's disease, ischemic vascular dementia, and Parkinson's disease. Jefferson AL, Cosentino SA, Ball SK, Bogdanoff B, Leopold N, Kaplan E, Libon DJ. Summer 311–320

Neuropsychiatric features of frontotemporal dementia: evaluation of Consensus Criteria and review. Mendez MF, Perryman KM. Fall 424–429

The Pocket Smell Test: successfully discriminating probable Alzheimer's dementia from vascular dementia and major depression. Duff K, McCaffrey RJ, Solomon GS. Spring 197–201

Symptoms of delirium among elderly medical inpatients with or without dementia. Cole MG, McCusker J, Dendukuri N, Han L. Spring 167–175

Depersonalization
The spectrum of organic depersonalization: a review plus four new cases. Lambert MV, Sierra M, Phillips ML, David AS. Spring 141–154
Depression. *See also* **Mood**
Cortisol and reduced interhemispheric coupling between the left prefrontal and the right parietal cortex (letter). Schutter DJLG, Van Honk J, Koppeschaar H, Kahn R. Winter 89–90
Disease-specific properties of the Hamilton Rating Scale for Depression in patients with stroke, Alzheimer's dementia, and Parkinson's disease. Naarding P, Leentjens AFG, van Kooten F, Verhey FRJ. Summer 329–334
Effects of depression and Parkinson's disease on cognitive functioning. Norman S, Tröster AI, Fields JA, Brooks R. Winter 31–36
Efficacy and safety of venlafaxine-ECT combination in treatment-resistant depression. Gonzalez-Pinto A, Gutierrez M, Gonzalez N, Elizagarate E, Perez de Heredia JL, Mico JA. Spring 206–209
The Pocket Smell Test: successfully discriminating probable Alzheimer's dementia from vascular dementia and major depression. Duff K, McCaffrey RJ, Solomon GS. Spring 197–201
Rapid worsening of depressive symptoms in a patient with depression after switching from a TCA to an SSRI (letter). Sato K, Yoshida K, Higuchi H, Shimizu T. Summer 357
Repetitive transcranial magnetic stimulation treatment of comorbid posttraumatic stress disorder and major depression. Rosenberg PB, Mehndiratta RB, Mehndiratta YP, Wamer A, Rosse RB, Balish M. Summer 270–276
Transcranial magnetic stimulation: a new investigational and treatment tool in psychiatry. Daskalakis ZJ, Christensen BK, Fitzgerald PB, Chen R. Fall 406–415
Diagnosis
Neuropsychiatric features of frontotemporal dementia: evaluation of Consensus Criteria and review. Mendez MF, Perryman KM. Fall 424–429
The Pocket Smell Test: successfully discriminating probable Alzheimer's dementia from vascular dementia and major depression. Duff K, McCaffrey RJ, Solomon GS. Spring 197–201
Double Cortex Syndrome
Interictal schizophrenia-like psychosis in a patient with double cortex syndrome. Akanuma N, Saitoh O, Yoshikawa T, Matsuda H, Ishikura N, Kato M, Adachi N, Onuma T. Spring 210–213
Dreams
Limbic system function and dream content in university students. Peterson NDJ, Henke PG, Hayes Z. Summer 283–288
Echolalia
Prominent echolalia from isolation of the speech area (letter). Mendez MF. Summer 356–357
Electroconvulsive Therapy (ECT)
Efficacy and safety of venlafaxine-ECT combination in treatment-resistant depression. Gonzalez-Pinto A, Gutierrez M, Gonzalez N, Elizagarate E, Perez de Heredia JL, Mico JA. Spring 206–209
Endocrinology
Cortisol and reduced interhemispheric coupling between the left prefrontal and the right parietal cortex (letter). Schutter DJLG, Van Honk J, Koppeschaar H, Kahn R. Winter 89–90
Do testosterone levels relate to aggression in elderly men with dementia? Orengo C, Kunik ME, Molinari V, Wristers K, Yudofsky SC. Spring 161–166
Eponyms
Beyond Wernicke's: a lexicon of eponyms in psychiatry. Bresch D. Spring 155–160
Executive Function
Executive control function: a review of its promise and challenges for clinical research. A report from the Committee on Research of the American Neuropsychiatric Association. Royall DR, Lauterbach EC, Cummings JL, Reeve A, Rummans TA, Kaufer DI, La France WC Jr, Coffey CE. Fall 377–405
Facial Processing
Impaired recognition of facial expressions of emotion in Alzheimer's disease. Hargrave R, Maddock RJ, Stone V. Winter 64–71
Fahr's Disease
Fahr's disease and schizophrenia in a patient with secondary hypoparathyroidism (letter). Ilievski B, Rodzevski K, Gibbon M, Dwork AJ. Summer 357–358
Frontal Lobe
Age and regional cerebral blood flow in schizophrenia: age effects in anterior cingulate, frontal, and parietal cortex. Schultz SK, O'Leary DS, Boles Ponto LL, Arndt S, Magnotta V, Watkins GL, Hichwa RD, Andreasen NC. Winter 19–24
Cortisol and reduced interhemispheric coupling between the left prefrontal and the right parietal cortex (letter). Schutter DJLG, Van Honk J, Koppeschaar H, Kahn R. Winter 89–90
Executive control function: a review of its promise and challenges for clinical research. A report from the Committee on Research of the American Neuropsychiatric Association. Royall DR, Lauterbach EC, Cummings JL, Reeve A, Rummans TA, Kaufer DI, La France WC Jr, Coffey CE. Fall 377–405
Frontal cortex atrophy predicts cognitive impairment in multiple sclerosis. Benedict RHB, Bakshi R, Simon JH, Priore R, Miller C, Munschauer F. Winter 44–51
Neuropsychiatric features of frontotemporal dementia: evaluation of Consensus Criteria and review. Mendez MF, Perryman KM. Fall 424–429
Geriatric Psychiatry
Apolipoprotein E gender effects on cognitive performance in age-associated memory impairment. Bartrés-Faz D, Junqué C, Moral P, López-Alomar A, Sánchez-Aldeguer J, Clemente IC. Winter 80–83
Geriatric Treatment Center: a contemporary model for collaboration between psychiatry and neurology (neuropsychiatric practice and opinion). Filley CM, Arciniegas DB, Wood GV, Anderson CA, Cheney E, Dygert CR,

Summerall L, Goos RB. Summer 344–350
Symptoms of delirium among elderly medical inpatients with or without dementia. Cole MG, McCusker J, Dendukuri N, Han L. Spring 167–175
Hallucinations
A blind man with Parkinson's disease, visual hallucinations, and Capgras syndrome (letter). Hermanowicz N. Fall 462–463
Transcranial magnetic stimulation of left auditory cortex in patients with schizophrenia: effects on hallucinations and neurocognition. d'Alfonso AAL, Aleman A, Kessels RPC, Schouten EA, Postma A, van der Linden JA, Cahn W, Greene Y, de Haan EHF, Kahn RS. Winter 77–79
Huntington's Disease
Behavior in Huntington's disease: dissociating cognition-based and mood-based changes. Thompson JC, Snowden JS, Craufurd D, Neary D. Winter 37–43
Learning. *See also* **Memory**
Learning and recall in subjects at genetic risk for Alzheimer's disease. Chen JG, Edwards CL, Vidyarthi S, Pitchumoni S, Tabrizi S, Barboriak D, Charles HC, Doraiswamy PM. Winter 58–63
Limbic System
Limbic system function and dream content in university students. Peterson NDJ, Henke PG, Hayes Z. Summer 283–288
Magnetization Transfer Ratio
Brain lesions in patients visiting a memory clinic with postconcussional sequelae after mild to moderate brain injury. Hofman PAM, Verhey FRJ, Wilmink JT, Rozendaal N, Jolles J. Spring 176–184
A magnetization transfer analysis of the thalamus in schizophrenia. Bagary MS, Foong J, Maier M, duBoulay G, Barker GJ, Miller DH, Ron MA. Fall 443–448
Medically Ill Patients
Educating patients about symptoms of anxiety in the wake of neurological illness (letter). Dattilio FM. Summer 354–355
Fahr's disease and schizophrenia in a patient with secondary hypoparathyroidism (letter). Ilievski B, Rodzevski K, Gibbon M, Dwork AJ. Summer 357–358
Frontal cortex atrophy predicts cognitive impairment in multiple sclerosis. Benedict RHB, Bakshi R, Simon JH, Priore R, Miller C, Munschauer F. Winter 44–51
Psychiatric features and disturbance of circadian rhythm of temperature, pulse, and blood pressure in Wilson's disease. Matarazzo EB. Summer 335–339
The spectrum of organic depersonalization: a review plus four new cases. Lambert MV, Sierra M, Phillips ML, David AS. Spring 141–154
Symptoms of delirium among elderly medical inpatients with or without dementia. Cole MG, McCusker J, Dendukuri N, Han L. Spring 167–175
Meige's Syndrome
Marked improvement of Meige's syndrome with olanzapine in a schizophrenic patient (letter). Fukui H, Murai T. Summer 355–356
Memory
Apolipoprotein E gender effects on cognitive performance in age-associated memory impairment. Bartrés-Faz D, Junqué C, Moral P, López-Alomar A, Sánchez-Aldeguer J, Clemente IC. Winter 80–83
Brain lesions in patients visiting a memory clinic with postconcussional sequelae after mild to moderate brain injury. Hofman PAM, Verhey FRJ, Wilmink JT, Rozendaal N, Jolles J. Spring 176–184
Déjà vu: possible parahippocampal mechanisms. Spatt J. Winter 6–10
Learning and recall in subjects at genetic risk for Alzheimer's disease. Chen JG, Edwards CL, Vidyarthi S, Pitchumoni S, Tabrizi S, Barboriak D, Charles HC, Doraiswamy PM. Winter 58–63
Memory mechanisms in posttraumatic stress disorder. Layton B, Krikorian B. Summer 254–261
Posttraumatic amnesia and recall of a traumatic event following traumatic brain injury. Feinstein A, Hershkop S, Ouchterlony D, Jardine A, McCullagh S. Winter 25–30
Mood. *See also* **Depression**
Behavior in Huntington's disease: dissociating cognition-based and mood-based changes. Thompson JC, Snowden JS, Craufurd D, Neary D. Winter 37–43
Clinical features and comorbidity of mood fluctuations in Parkinson's disease. Racette BA, Hartlein JM, Hershey T, Mink JW, Perlmutter JS, Black KJ. Fall 438–442
Mood Stabilizers
Divalproex in the management of neuropsychiatric complications of remote acquired brain injury. Kim E, Humaran TJ. Spring 202–205
In reply to Dr. Lauterbach (letter). Bräunig P, Krüger S. Winter 85–86
Lamotrigine–clozapine combination in refractory schizophrenia: three cases (letter). Saba G, Dumortier G, Kalalou K, Benadhira R, Degrassat K, Glikman J, Januel D. Winter 86
A randomized, double-blind, crossover study of methylphenidate and lithium in adults with attention-deficit/hyperactivity disorder: preliminary findings. Dorrego MF, Canevaro L, Kuzis G, Sabe L, Starkstein SE. Summer 289–295
Valproate for catatonia: need for caution in patients on SSRIs and antipsychotics (letter). Lauterbach EC. Winter 84–85
MRI Studies
Clinicopathologic case report: akinetic mutism with findings of white matter hyperintensity (neuropsychiatric practice and opinion). Lim GT, Mendez MF, Bronstein YL, Jouben-Steele L, Vinters HV. Spring 214–221
Ecstasy in the brain: a model for neuroimaging (windows to the brain). Hurley RA, Reneman L, Taber KH. Spring 125–129
Subcortical hyperintensities in Alzheimer's disease: associated clinical and metabolic findings. Sultzer DL, Chen ST, Brown CV, Mahler ME, Cummings JL, Hinkin CH, Mandelkern MA. Summer 262–269
Multiple Sclerosis
Frontal cortex atrophy predicts cognitive impairment in multiple sclerosis. Benedict RHB, Bakshi R, Simon JH, Priore R, Miller C, Munschauer F. Winter 44–51
Neuroleptic Malignant Syndrome
A case of neuroleptic malignant

syndrome with quetiapine (letter). Bourgeois JA, Babine S, Meyerovich M, Doyle J. Winter 87

Neuropsychiatric Practice and Opinion

Clinicopathologic case report: akinetic mutism with findings of white matter hyperintensity. Lim GT, Mendez MF, Bronstein YL, Jouben-Steele L, Vinters HV. Spring 214–221

Geriatric Treatment Center: a contemporary model for collaboration between psychiatry and neurology. Filley CM, Arciniegas DB, Wood GV, Anderson CA, Cheney E, Dygert CR, Summerall L, Goos RB. Summer 344–350

Nosology

Beyond Wernicke's: a lexicon of eponyms in psychiatry. Bresch D. Spring 155–160

Obsessive-Compulsive Disorder and Symptoms

Association of obsessions and compulsions in schizophrenia with neurocognition and negative symptoms. Lysaker PH, Bryson GJ, Marks KA, Greig TC, Bell MD. Fall 449–453

Obsessive-compulsive disorder associated with a left orbitofrontal infarct (letter). Kim KW, Lee DY. Winter 88–89

Predicting treatment response in obsessive-compulsive disorder (windows to the brain). Hurley RA, Saxena S, Rauch SL, Hoehn-Saric R, Taber KH. Summer 249–253

Parietal Cortex

Age and regional cerebral blood flow in schizophrenia: age effects in anterior cingulate, frontal, and parietal cortex. Schultz SK, O'Leary DS, Boles Ponto LL, Arndt S, Magnotta V, Watkins GL, Hichwa RD, Andreasen NC. Winter 19–24

Cortisol and reduced interhemispheric coupling between the left prefrontal and the right parietal cortex (letter). Schutter DJLG, Van Honk J, Koppeschaar H, Kahn R. Winter 89–90

Parietal circuits and conversion seizures (letter). Vuilleumier P, Finkelstein Y, Zlotogorski Z. Fall 468

Parkinson, James

Neurodegenerative disorders: James Parkinson's essay on the shaking palsy. Neylan TC. Spring 222

Parkinson's Disease

A blind man with Parkinson's disease, visual hallucinations, and Capgras syndrome (letter). Hermanowicz N. Fall 462–463

An essay on the shaking palsy (neuropsychiatry classics). Parkinson J. Spring 223–236

Clinical features and comorbidity of mood fluctuations in Parkinson's disease. Racette BA, Hartlein JM, Hershey T, Mink JW, Perlmutter JS, Black KJ. Fall 438–442

Disease-specific properties of the Hamilton Rating Scale for Depression in patients with stroke, Alzheimer's dementia, and Parkinson's disease. Naarding P, Leentjens AFG, van Kooten F, Verhey FRJ. Summer 329–334

Effects of depression and Parkinson's disease on cognitive functioning. Norman S, Tröster AI, Fields JA, Brooks R. Winter 31–36

Errors produced on the Mini-Mental State Examination and neuropsychological test performance in Alzheimer's disease, ischemic vascular dementia, and Parkinson's disease. Jefferson AL, Cosentino SA, Ball SK, Bogdanoff B, Leopold N, Kaplan E, Libon DJ. Summer 311–320

Methylphenidate treats apathy in Parkinson's disease (letter). Chatterjee A, Fahn S. Fall 461–462

Neurodegenerative disorders: James Parkinson's essay on the shaking palsy. Neylan TC. Spring 222

PET Studies

Age and regional cerebral blood flow in schizophrenia: age effects in anterior cingulate, frontal, and parietal cortex. Schultz SK, O'Leary DS, Boles Ponto LL, Arndt S, Magnotta V, Watkins GL, Hichwa RD, Andreasen NC. Winter 19–24

Cerebral blood flow changes associated with Schneiderian first-rank symptoms in schizophrenia. Franck N, O'Leary D, Flaum M, Hichwa RD, Andreasen NC. Summer 277–282

Ecstasy in the brain: a model for neuroimaging (windows to the brain). Hurley RA, Reneman L, Taber KH. Spring 125–129

Predicting treatment response in obsessive-compulsive disorder (windows to the brain). Hurley RA, Saxena S, Rauch SL, Hoehn-Saric R, Taber KH. Summer 249–253

Subcortical hyperintensities in Alzheimer's disease: associated clinical and metabolic findings. Sultzer DL, Chen ST, Brown CV, Mahler ME, Cummings JL, Hinkin CH, Mandelkern MA. Summer 262–269

Phantom Limb

A third arm on the chest: implications for the cortical reorganization theory of phantom limbs (letter). Sakagami Y, Murai T, Sugiyama H. Winter 90–91

Posttraumatic Stress Disorder

Memory mechanisms in posttraumatic stress disorder. Layton B, Krikorian B. Summer 254–261

Posttraumatic amnesia and recall of a traumatic event following traumatic brain injury. Feinstein A, Hershkop S, Ouchterlony D, Jardine A, McCullagh S. Winter 25–30

Psychosensory symptoms in combat veterans with posttraumatic stress disorder. Roca V, Freeman TW. Spring 185–189

Repetitive transcranial magnetic stimulation treatment of comorbid posttraumatic stress disorder and major depression. Rosenberg PB, Mehndiratta RB, Mehndiratta YP, Wamer A, Rosse RB, Balish M. Summer 270–276

Temporal lobe structural lesion in a case of posttraumatic stress disorder (letter). Seedat S, van der Westhuizen S, Matthey M, Stein DJ. Spring 240–241

Prion Disease

The expanding role of imaging in prion disease (windows to the brain). Taber KH, Cortelli P, Staffen W, Hurley RA. Fall 371–376

Psychosensory Symptoms

Psychosensory symptoms in combat veterans with posttraumatic stress disorder. Roca V, Freeman TW. Spring 185–189

Psychosis. *See also* **Schizophrenia**

Characteristics of psychotic disorder due to traumatic brain injury: an analysis of case studies in the literature. Fujii D, Ahmed I. Spring 130–140

In reply to Drs. Fong et al. (letter).

Alper KR, Devinsky O, Boylan L. Fall 465–466
Interictal schizophrenia-like psychosis in a patient with double cortex syndrome. Akanuma N, Saitoh O, Yoshikawa T, Matsuda H, Ishikura N, Kato M, Adachi N, Onuma T. Spring 210–213
Premorbid psychiatric risk factors for postictal psychosis (letter). Fong GC-y, Ho WY, Fong K-y, Ho S-l. Fall 465
Risk factors for treatment-resistive methamphetamine psychosis (letter). Fujii D. Spring 239–240

Psychostimulants

Adjunctive modafinil in ALS (letter). Sternbach H. Spring 239
Ecstasy in the brain: a model for neuroimaging (windows to the brain). Hurley RA, Reneman L, Taber KH. Spring 125–129
Methylphenidate treats apathy in Parkinson's disease (letter). Chatterjee A, Fahn S. Fall 461–462
A randomized, double-blind, crossover study of methylphenidate and lithium in adults with attention-deficit/hyperactivity disorder: preliminary findings. Dorrego MF, Canevaro L, Kuzis G, Sabe L, Starkstein SE. Summer 289–295
Risk factors for treatment-resistive methamphetamine psychosis (letter). Fujii D. Spring 239–240

Reading Disability

Slowly progressive alexia (letter). Mendez MF Winter 84

Research

Determining levels of unawareness in dementia research. Lamar M, Lasarev MR, Libon DJ. Fall 430–437
Executive control function: a review of its promise and challenges for clinical research. A report from the Committee on Research of the American Neuropsychiatric Association. Royall DR, Lauterbach EC, Cummings JL, Reeve A, Rummans TA, Kaufer DI, La France WC Jr, Coffey CE. Fall 377–405

Risk Factors

Learning and recall in subjects at genetic risk for Alzheimer's disease. Chen JG, Edwards CL, Vidyarthi S, Pitchumoni S, Tabrizi S, Barboriak D, Charles HC, Doraiswamy PM. Winter 58–63
Premorbid psychiatric risk factors for postictal psychosis (letter). Fong GC-y, Ho WY, Fong K-y, Ho S-l. Fall 465
Risk factors for treatment-resistive methamphetamine psychosis (letter). Fujii D. Spring 239–240

Schizophrenia

Age and regional cerebral blood flow in schizophrenia: age effects in anterior cingulate, frontal, and parietal cortex. Schultz SK, O'Leary DS, Boles Ponto LL, Arndt S, Magnotta V, Watkins GL, Hichwa RD, Andreasen NC. Winter 19–24
Association of obsessions and compulsions in schizophrenia with neurocognition and negative symptoms. Lysaker PH, Bryson GJ, Marks KA, Greig TC, Bell MD. Fall 449–453
Cerebral blood flow changes associated with Schneiderian first-rank symptoms in schizophrenia. Franck N, O'Leary D, Flaum M, Hichwa RD, Andreasen NC. Summer 277–282
Differential effects of olanzapine and risperidone on cognition in schizophrenia? A saccadic eye movement study. Broerse A, Crawford TJ, den Boer JA. Fall 454–460
Fahr's disease and schizophrenia in a patient with secondary hypoparathyroidism (letter). Ilievski B, Rodzevski K, Gibbon M, Dwork AJ. Summer 357–358
Impaired visuomotor function in schizophrenic patients compared with control subjects. Silver H, Shlomo N, Schwartz M, Hocherman S. Winter 72–76
In reply to Dr. Lauterbach (letter). Bräunig P, Krüger S. Winter 85–86
Insight and neurocognitive function in schizophrenia (letter). Aleman A, de Haan EHF, Kahn RS. Spring 241–242
Lamotrigine–clozapine combination in refractory schizophrenia: three cases (letter). Saba G, Dumortier G, Kalalou K, Benadhira R, Degrassat K, Glikman J, Januel D. Winter 86
A magnetization transfer analysis of the thalamus in schizophrenia. Bagary MS, Foong J, Maier M, duBoulay G, Barker GJ, Miller DH, Ron MA. Fall 443–448
Marked improvement of Meige's syndrome with olanzapine in a schizophrenic patient (letter). Fukui H, Murai T. Summer 355–356
Spatiotemporal visual processing in schizophrenia. Kéri S, Antal A, Szekeres G, Benedek G, Janka Z. Spring 190–196
Transcranial magnetic stimulation: a new investigational and treatment tool in psychiatry. Daskalakis ZJ, Christensen BK, Fitzgerald PB, Chen R. Fall 406–415
Transcranial magnetic stimulation of left auditory cortex in patients with schizophrenia: effects on hallucinations and neurocognition. d'Alfonso AAL, Aleman A, Kessels RPC, Schouten EA, Postma A, van der Linden JA, Cahn W, Greene Y, de Haan EHF, Kahn RS. Winter 77–79
Valproate for catatonia: need for caution in patients on SSRIs and antipsychotics (letter). Lauterbach EC. Winter 84–85

Seizure Disorders

In reply to Drs. Fong et al. (letter). Alper KR, Devinsky O, Boylan L. Fall 465–466
Interictal schizophrenia-like psychosis in a patient with double cortex syndrome. Akanuma N, Saitoh O, Yoshikawa T, Matsuda H, Ishikura N, Kato M, Adachi N, Onuma T. Spring 210–213
Parietal circuits and conversion seizures (letter). Vardi J, Finkelstein Y, Zlotogorski Z. Fall 468
Premorbid psychiatric risk factors for postictal psychosis (letter). Fong GC-y, Ho WY, Fong K-y, Ho S-l. Fall 465
The spectrum of organic depersonalization: a review plus four new cases. Lambert MV, Sierra M, Phillips ML, David AS. Spring 141–154

Somatization Disorder

Paroxetine for treatment of somatization disorder (letter). Okugawa G, Yagi A, Kusaka H, Kinoshita T. Fall 465–466

SPECT Studies

Ecstasy in the brain: a model for neuroimaging (windows to the

brain). Hurley RA, Reneman L, Taber KH. Spring 125–129
Predicting treatment response in obsessive-compulsive disorder (windows to the brain). Hurley RA, Saxena S, Rauch SL, Hoehn-Saric R, Taber KH. Summer 249–253
SPECT scans in identical twins with trichotillomania. Vythilingum B, Warwick J, van Kradenburg J, Hugo C, van Heerden B, Stein DJ. Summer 340–342

Speech and Language

Clinicopathologic case report: akinetic mutism with findings of white matter hyperintensity (neuropsychiatric practice and opinion). Lim GT, Mendez MF, Bronstein YL, Jouben-Steele L, Vinters HV. Spring 214–221
Neurological basis of deficits in affective prosody comprehension among alcoholics and fetal alcohol–exposed adults. Monnot M, Lovallo WR, Nixon SJ, Ross E. Summer 321–328
Prominent echolalia from isolation of the speech area (letter). Mendez MF. Summer 356–357

Stroke

Disease-specific properties of the Hamilton Rating Scale for Depression in patients with stroke, Alzheimer's dementia, and Parkinson's disease. Naarding P, Leentjens AFG, van Kooten F, Verhey FRJ. Summer 329–334
Obsessive-compulsive disorder associated with a left orbitofrontal infarct (letter). Kim KW, Lee DY. Winter 88–89

Substance Use Disorders

Addiction denial and cognitive dysfunction: a preliminary investigation. Rinn W, Desai N, Rosenblatt H, Gastfriend DR. Winter 52–57
On addiction denial and cognitive dysfunction in alcoholics (letter). Strauss GD. Fall 467
Ecstasy in the brain: a model for neuroimaging (windows to the brain). Hurley RA, Reneman L, Taber KH. Spring 125–129
In reply to Dr. Strauss (letter). Rinn WE Fall 467–468
Neurological basis of deficits in affective prosody comprehension among alcoholics and fetal alcohol–exposed adults. Monnot M, Lovallo WR, Nixon SJ, Ross E. Summer 321–328
Risk factors for treatment-resistive methamphetamine psychosis (letter). Fujii D. Spring 239–240

Symptomatology

Association of obsessions and compulsions in schizophrenia with neurocognition and negative symptoms. Lysaker PH, Bryson GJ, Marks KA, Greig TC, Bell MD. Fall 449–453
Cerebral blood flow changes associated with Schneiderian first-rank symptoms in schizophrenia. Franck N, O'Leary D, Flaum M, Hichwa RD, Andreasen NC. Summer 277–282
Clinical features and comorbidity of mood fluctuations in Parkinson's disease. Racette BA, Hartlein JM, Hershey T, Mink JW, Perlmutter JS, Black KJ. Fall 438–442
Educating patients about symptoms of anxiety in the wake of neurological illness (letter). Dattilio FM. Summer 354–355
Investigating emergent symptomatology as an outcome measure in a behavioral study of Alzheimer's disease. Tractenberg RE, Gamst A, Thomas RG, Patterson M, Schneider LS, Thal LJ. Summer 303–310
Psychosensory symptoms in combat veterans with posttraumatic stress disorder. Roca V, Freeman TW. Spring 185–189
Rapid worsening of depressive symptoms in a patient with depression after switching from a TCA to an SSRI (letter). Sato K, Yoshida K, Higuchi H, Shimizu T. Summer 357
Symptoms of delirium among elderly medical inpatients with or without dementia. Cole MG, McCusker J, Dendukuri N, Han L. Spring 167–175

Temporal Lobe

Temporal lobe structural lesion in a case of posttraumatic stress disorder (letter). Seedat S, van der Westhuizen S, Matthey M, Stein DJ. Spring 240–241

Transcranial Magnetic Stimulation

Repetitive transcranial magnetic stimulation treatment of comorbid posttraumatic stress disorder and major depression. Rosenberg PB, Mehndiratta RB, Mehndiratta YP, Wamer A, Rosse RB, Balish M. Summer 270–276
Transcranial magnetic stimulation: a new investigational and treatment tool in psychiatry. Daskalakis ZJ, Christensen BK, Fitzgerald PB, Chen R. Fall 406–415
Transcranial magnetic stimulation of left auditory cortex in patients with schizophrenia: effects on hallucinations and neurocognition. d'Alfonso AAL, Aleman A, Kessels RPC, Schouten EA, Postma A, van der Linden JA, Cahn W, Greene Y, de Haan EHF, Kahn RS. Winter 77–79

Traumatic Brain Injury

Brain lesions in patients visiting a memory clinic with postconcussional sequelae after mild to moderate brain injury. Hofman PAM, Verhey FRJ, Wilmink JT, Rozendaal N, Jolles J. Spring 176–184
Characteristics of psychotic disorder due to traumatic brain injury: an analysis of case studies in the literature. Fujii D, Ahmed I. Spring 130–140
Divalproex in the management of neuropsychiatric complications of remote acquired brain injury. Kim E, Humaran TJ. Spring 202–205
Donepezil for cognitive deficits following traumatic brain injury: a case report (letter). Bourgeois JA, Bahadur N, Minjares S. Fall 463–464
The future for diffusion tensor imaging in neuropsychiatry (windows to the brain). Taber KH, Pierpaoli C, Rose SE, Rugg-Gunn FJ, Chalk JB, Jones DK, Hurley RA. Winter 1–5
Posttraumatic amnesia and recall of a traumatic event following traumatic brain injury. Feinstein A, Hershkop S, Ouchterlony D, Jardine A, McCullagh S. Winter 25–30
Risperidone and refusal to eat after traumatic brain injury (letter). Mizoguchi Y, Monji A, Isayama H, Tashiro N. Winter 87–88
The spectrum of organic depersonalization: a review plus four new cases. Lambert MV, Sierra M, Phillips ML, David AS. Spring 141–154
Traumatic brain injury and atrophy of

the cingulate gyrus. Yount R, Raschke KA, Biru M, Tate DF, Miller MJ, Abildskov T, Gandhi P, Ryser D, Hopkins RO, Bigler ED. Fall 416–423

Trichotillomania

SPECT scans in identical twins with trichotillomania. Vythilingum B, Warwick J, van Kradenburg J, Hugo C, van Heerden B, Stein DJ. Summer 340–342

Visual System

A blind man with Parkinson's disease, visual hallucinations, and Capgras syndrome (letter). Hermanowicz N. Fall 462–463

Impaired visuomotor function in schizophrenic patients compared with control subjects. Silver H, Shlomo N, Schwartz M, Hocherman S. Winter 72–76

Spatiotemporal visual processing in schizophrenia. Kéri S, Antal A, Szekeres G, Benedek G, Janka Z. Spring 190–196

Wilson's Disease

Psychiatric features and disturbance of circadian rhythm of temperature, pulse, and blood pressure in Wilson's disease. Matarazzo EB. Summer 335–339

Windows to the Brain

Ecstasy in the brain: a model for neuroimaging. Hurley RA, Reneman L, Taber KH. Spring 125–129

The expanding role of imaging in prion disease. Taber KH, Cortelli P, Staffen W, Hurley RA. Fall 371–376

The future for diffusion tensor imaging in neuropsychiatry. Taber KH, Pierpaoli C, Rose SE, Rugg-Gunn FJ, Chalk JB, Jones DK, Hurley RA. Winter 1–5

Predicting treatment response in obsessive-compulsive disorder. Hurley RA, Saxena S, Rauch SL, Hoehn-Saric R, Taber KH. Summer 249–253
